

Proudly supplying oral hygiene products for over 40 years to dental practices across the UK and Ireland

# For dry mouth – when just water is not enough

New

**1 in 5 suffer from dry mouth**, and water is usually the standard remedy. But for many people, water only provides brief relief. TePe's new hydrating mouthwash and mouth gel ease the feeling of dry mouth, provides comfort, and protects teeth.

### **Curasept H2O2 Mouthwash is a medicated mouthwash that contains 1% hydrogen peroxide.**

Hydrogen peroxide works as an antiseptic by rapidly releasing oxygen when it comes into contact with tissues. This oxygenating process has an anti-bacterial effect on anaerobic bacteria, and provides a cleaning action by removing debris, killing germs and preventing biofilm formation. This facilitates healing and alleviates discomfort caused by minor mouth and gum irritations.

300ml. Alcohol free.

#### **Recommended Use:**

Rinse the mouth with 10ml of mouthwash for 60 seconds. Spit out and do not swallow.  
Do not dilute and do not rinse afterwards. Use twice a day for up to 7 days.

To try this product before you buy it, please contact our Customer Services team on 0208 391 8891  
Offer valid until 30.06.24. Free stock will arrive with your order.

## Piksters® Size 000 Interdental Brush

Probably the world's finest interdental brush.

For ultra fine tooth gaps.

So fine it will fit into a hole just .55mm in diameter.

Stripped or splinted incisors.

Crowded & tight teeth.

Bi & tri furcations.

Defects.

**Reusable 10 pack**

**Piksters Interdental Brushes**

**#1 Brand**

**Size 000**

**Use this, only easier!**

- Perfect for cleaning in between tight spaces (especially stripped incisors).
- Excellent for younger patients with smaller interdental spaces.
- Great for cleaning in-between braces.
- Piksters size 000 can go into furcations - partial or through and through.
- Piksters size 000 is so fine it can go down perio pockets. Great with Chlorhexidine gel or similar.
- Use with Power Pikster to add sonic power to your interdental brush!

Sold in packets of 10 brushes.

*Expect the brush to be much more fragile, so use with very light pressure combined with a twisting action, or use with the Power Pikster™ handle (the vibrations reduce insertion force up to 70%, which helps avoid wire bending while adding the benefit of power cleaning).*

# clinell® Spill Wipes

Spill Wipes Kit and dispenser

## Absorbs an entire body fluid spill for safe removal in seconds.

Complete kit for clearing body fluid spills, from the UK's no.1 hospital disinfectant brand.

### Kills microorganisms associated with body fluid spills

Proven efficacy against Hepatitis B and C, *Clostridioides difficile*, Norovirus and killing viruses and bacterial endospores. Conforms to: EN 17126, EN 13727, EN 14248, EN 14476 and EN 13624, as well as standards set by the national infection prevention and control manual.<sup>1</sup>

### Quicker alternative to traditional spill kits

Replaces traditional chlorine-based spill kits, which are time-consuming and hazardous to use. Clinell Spill Wipes are simple to use, helping to increase compliance and reduce the burden of pathogen transmission.

### Soak spill, wipe surface, dispose safely

As a complete kit, Clinell Spill Wipes provide an efficient solution for spills up to 350ml from start to finish. After use, the soiled pad, wipes and PPE worn by the user can be placed into the resealable bag and safely disposed of within the appropriate waste channel.

### Based on patented technology

Harnessing the formulation technology of Clinell Peracetic Acid Wipes, the pad generates powerful oxidising agents including peracetic acid, which is safe for use on blood, faeces and urine - unlike chlorine-based disinfectants, which form toxic gas on contact with urine.

## What is in a Clinell Spill Wipes Kit?

One super absorbent, peracetic acid generating pad

Two large detergent-disinfectant wipes

Resealable bag for safe and easy waste disposal

**DHB code:** CLI039 - £3.49
