## Piksters Eco PLA Toothbrush

PIK039	Comfort Grip
PIK040	Sensitive Clean Tapertip

PLA toothbrushes are made from bioplastic derived from corn starch (not fossil fuels). It is an alternative to traditional plastic and doesn't release toxic chemicals when it breaks down. The handles are commercially compostable. The clear window on our brush packaging is made out of 100% biodegradable corn starch and the cardboard packaging is recycled. It is lightweight with soft tapered tips (special tapered tip bristles made from PBT) and has 98% less plastic.

#### PAP

A powerful oxidising whitening ingredient that has been shown in laboratory and clinical studies to whiten teeth without any sensitivity, pain or damage. Unlike Peroxide, it does not release free radicals, which damage enamel and tissues. It is also organic, non-toxic and biodegradable.

#### DEEP PURPLE PIGMENTS

On the colour wheel yellow and purple are located opposite to each other and if applied directly one over another, they cancel each other out. As purple pigments get deposited onto the tooth surface during brushing, they help to cancel yellow undertones immediately revealing visibly brighter icy-white smile without any purple residue.

#### PAPAYA ENZYME - PAPAIN

Extracted from the raw fruit of the papaya plant, Papain disrupts the film on the tooth surface that harbours plaque and staining compounds, breaking down and eliminating stain molecules, which increases the reflection of light from the surface making teeth appear whiter.

# INGREDIENTS

Billion Dollar Smile formulas are proudly  
POWERED BY NATURE - BACKED BY SCIENCE  
Featuring the best of the best innovation in  
the aesthetic dentistry and beauty
