Made in Great Britain

OPTIM Interdental brushes are precision **made in the UK**, using high tensile strength, plastic-coated, stainless-steel wire at the core, which helps to prevent the brushes from buckling, **even on the smallest sizes**. They are the same colour coded sizes that practices/patients are already familiar with and are very competitively priced.

TANDEX FLEXI and TANDEX PREVENT Gel

TANDEX FLEXI is a specially designed interdental brush with an ergonomic grip. The flexible grip makes it easy to reach for all patients even interdental spaces in the back of the mouth.

TANDEX FLEXI gives an efficient and gentle treatment for both teeth and gums. It includes 11 different sizes so there are brushes to suit small interdental spaces or more complex bridge and implant spaces. Your dentist or dental hygienist will help you find a size that is right for you.

TANDEX PREVENT Gel is a specially developed gel with 900 ppm fluoride and 0.12% chlorhexidine. Strengthens enamel and protects against plaque and cavities. It provides effective cleaning between the teeth. An antibacterial gel designed especially for use with interdental/gum brushes.

INCORRECT HOLD OF BRUSH

CORRECT HOLD OF BRUSH

HOW TO USE THE BRUSH

What sets these brushes apart?

- VisionPerio Brushes offer superior cleaning, into gum pockets between the teeth, and under the gingival cuff.
- VisionPerio don't bend or break—so are durable like a regular toothbrush—an eco-friendly choice.
- With daily use, a pack of four brushes can last through three monthly periodontal maintenance visits.
- Patients will opt for VisionPerio for more effective cleaning, durability, and exceptional value.

Biosmalto Impact Action Mousse contains Amorphous Calcium Phosphate (ACP) enriched with Carbonate and Fluoride to **intensely remineralise** and regenerate enamel and dentine.

Biosmalto Toothpaste and Mouthwash contain two different types of hydroxyapatite that work biomimetically to **strengthen and protect enamel on a daily basis**.

The **potassium nitrate** inside the mousse, toothpaste and mouthwash depolarises nerve fibres for **rapid pain**, and the small particles occlude exposed dentinal tubules for a **long lasting desensitising effect**.
