

Proudly supplying oral hygiene products for over 40 years to dental practices across the UK and Ireland

# CURASEPT<sup>®</sup> BIOSMALTO

A new **'GAME CHANGER'**  
in the treatment of  
**SENSITIVITY**

**Biosmalto<sup>®</sup> Impact Action Mousse** acts bio-actively to intensely remineralise enamel and dentine. With an **innovative, patented formula** containing Amorphous Calcium Phosphate (ACP) enriched with carbonate and fluoride, Biosmalto provides a biomimetic type action that **stimulates the remineralisation of a tooth surface** to create **newly formed hydroxyapatite crystals**.

The **potassium nitrate** inside the Biosmalto Sensitive range **depolarises nerve fibres for rapid pain relief**, and the small particles **occlude exposed dentinal tubules** for a highly effective and long lasting de-sensitising effect.

Step One

Curasept Biosmalto  
Impact Action Mousse (150ml):  
In-Surgery Application

Step Two

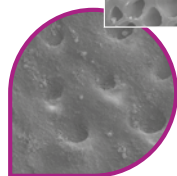

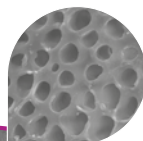

Curasept Biosmalto  
Impact Action Mousse (50ml):  
At-Home Application over 30 - 90 Days

Step Three

Curasept Biosmalto Toothpaste  
and Mouthwash:  
Daily At-Home Use

Untreated  
Tooth Surface

Tooth Treated with  
Biosmalto

**BUY ANY  
2 AND GET  
1 EXTRA  
FREE**

## Indications:

Ideal for those suffering from hyper-sensitivity due to exposure of dentine through weakened enamel and/or gingival recession.

Also for whitening patients (before and after treatment), immediately before hygiene treatment and after 'airflow' treatment.

# Brush where your toothbrush can't reach

An interdental brush is the most efficient, user-friendly device for plaque removal between teeth. TePe's selection of interdental brushes offers an option for every need – make your choice among a variety of sizes and models.

## 1 TePe® Interdental Brush

TePe's original interdental brushes come in 9 colour coded sizes to fit narrow as well as wide gaps.

## 2 TePe Angle™

TePe Angle™ has a long handle and an angled head for easier access between the back teeth and are available in 6 colour coded sizes.

## 3 TePe® Interdental Brush Extra Soft

TePe's extra soft interdental brushes have extra soft filaments for gentle and safe cleaning around natural teeth and implants, and are available in 6 colour coded sizes.

# Oralieve®

DRY MOUTH RELIEF

The Oralieve range has been specifically designed to soothe, comfort and relieve dry and sensitive mouths. Helping to provide gentle oral health care without any harsh ingredients or strong flavours that may be irritating for patients.

Unique combination of moisturisers and enzymes supplement the same natural systems in saliva essential for a healthy, comfortable mouth

Formulated with gentle flavours, no alcohol and no SLS  
Specially designed and tested with dry mouth sufferers  
Safe to use on patients with oxygen  
Suitable for vegetarians

*Rewarding loyalty matters to us,  
so our way of saying thank you,  
is to offer you **FREE** product for  
you to use in-surgery*

**Optimise** your purchases and get **FREE** OPTIM  
Interdental stock when you buy OPTIM  
Interdental brushes. **Here's how:**

Spend	and receive
£250*	3 bulk bags
£500*	7 bulk bags
£1000*	15 bulk bags
£2000*	35 bulk bags
£5000*	100 bulk bags

\*value of qualifying purchases including VAT  
Invoices sent in with your claim must not be over 12 months old.

### Optimise

1. Keep a record of your purchases of OPTIM Interdental brushes on the reverse of this card.
2. Once you have achieved your desired level of free brushes, please complete the reverse of this card and send via email, to: [sales@stoddard.uk](mailto:sales@stoddard.uk) Please also send scanned copies of supporting invoices.
3. Free stock will be sent out in single colour 25 brush bags, so please don't forget to indicate what you require on the reverse of the card. We will send your requested free OPTIM Interdental stock directly to you.

**PLUS Don't forget to complete your  
loyalty cards to claim your free stock.**

OPTIM<sup>TM</sup>

**OPTIM Interdental brushes** are precision made in the UK, using high tensile strength, plastic-coated, stainless-steel wire at the core, which helps to prevent the brushes from buckling, **even on the smallest sizes**. They are the same colour coded sizes that practices/patients are already familiar with and are very competitively priced.

For more information or to request a sample, simply speak to your dealer, scan the QR code or visit [www.optim-idb.uk](http://www.optim-idb.uk)

The couple that helps you to achieve even better oral hygiene

Find The  
Perfect Couple  
and all our other  
products on  
**tandex.dk**

**TANDEX**   
keeps you smiling

## FLEXI

- The special flexible handle makes it possible to angle the handle to achieve better and easier access to all interdental spaces.
- The non-slip handle ensures good grip, even when fingers are wet.
- All brushes have plastic coated wire. This ensures no metal is in direct contact with teeth and gums, thus making them much more comfortable to use and preventing dental injuries.
- 11 sizes ensure that all needs are covered.

## PREVENT Gel

- Strengthens the enamel and has an anti-bacterial effect.
- 0.12% chlorhexidine and 900 ppm fluoride.
- The consistency combined with the needle shaped tube end make it easy to apply directly on the FLEXI brush and use wherever needed.
- Pleasant taste of peppermint.
- No alcohol or abrasives.

# BLANCONE®

The most advanced technologies in tooth whitening

**LightSpeed 3.0:**

light-speed whitening

The third generation of LightSpeed technology has achieved **unprecedented effectiveness**. Irradiated by the powerful ARCUS lamp, **new BlancOne® photo-booster**s are overexcited by photons, storing even **more energy to break down hydrogen peroxide**.

In addition to the free radicals released by conventional whitening systems, LightSpeed technology produces **singlet oxygen**, a nonradiative atomic form of oxygen, for a much **faster, deeper and safer whitening action** which will continue for up to 72 hours.

Hydrogen peroxide takes 45 minutes to release its maximum oxidizing power carbamide peroxide requires 4 hours. **BlancOne® photochemical gels act within minutes** by preventing the aggression and dehydration of enamel and dental sensitivity.

## Tooth Rejuvenation:

stronger and brighter teeth

Thanks to **Tooth Rejuvenation technology**, now also in office systems, BlancOne® treatments offer a **double benefit**: **dental brightness enhancement and enamel restructuring with nano-hydroxyapatite** a true enamel rejuvenation treatment.

Tooth Rejuvenation technology uses a synergistic mechanism in which the oxidative action of peroxide activates a **vitamin booster** capable of generating an extraordinary regenerative environment that greatly **amplifies the effectiveness of hydroxyapatite nanoparticles**.

Tooth Rejuvenation technology activates Ca, P ions and mineral nanoparticles by stimulating a process of forced deposition and adhesion at the ionic level to the tooth structure, producing **an extraordinary protective, restructuring and desensitizing action**, further contributing to tooth brightness through the biomimicry of hydroxyapatite.
