Our best toothbrush now comes in 3 different bristles types!

Piksters Curvie Regular

- Increased bristle count & bristle density means more cleaning efficiency.
- High quality brush at a great price.
- 6 fresh colour handles & bristle combinations.
- More comfort than a straight brush.
- Small head, soft bristles & safe x-fine filament and flat trim.

NEW!

Special new smaller 0.004 inch diameter filament with stiffer PBT filament compensates to create the same softness texture for safe cleaning, BUT means we can now put more filament in per square mm! This is reputed to give a higher cleaning efficiency/effectiveness per brush stroke.

Piksters Curvie Gentle

- Highly tapered bristles can reach below the gumline & between teeth - proven to reduce gingivitis.*
- Less gingival abrasion, less recession and less exposure of sensitive root structure.*

Piksters Curvie ORTHO

Specifically designed for cleaning around orthodontic brackets

- The new 'CURVIE ORTHO' toothbrush has a small head with a mix of flat trim bristles and a row of extra soft tapered bristles on the edge*. Designed to clean effectively around orthodontic brackets.

- Less gum wear from abrasion.**
- Extreme comfort grip & ergonomic design. The rubbery contour grips for good tackiness & allows excellent control and comfort. Some may say it's more comfortable to grip than a straight brush!
- Efficient: More bristles/mm2 = more cleaning power per stroke.
- 4 fresh colour handles and bristle combinations.

ALL Curvie toothbrushes now with rubbery contour grips for better control.

PAP

A powerful oxidising whitening ingredient that has been shown in laboratory and clinical studies to whiten teeth without any sensitivity, pain or damage. Unlike Peroxide, it does not release free radicals, which damage enamel and tissues. It is also organic, non-toxic and biodegradable.

DEEP PURPLE PIGMENTS

On the colour wheel yellow and purple are located opposite to each other and if applied directly one over another, they cancel each other out. As purple pigments get deposited onto the tooth surface during brushing, they help to cancel yellow undertones immediately revealing visibly brighter icy-white smile without any purple residue.

PAPAYA ENZYME - PAPAIN

Extracted from the raw fruit of the papaya plant, Papain disrupts the film on the tooth surface that harbours plaque and staining compounds, breaking down and eliminating stain molecules, which increases the reflection of light from the surface making teeth appear whiter.

clinell® Spill Wipes

Spill Wipes Kit and dispenser

Absorbs an entire body fluid spill for safe removal in seconds.

Complete kit for clearing body fluid spills, from the UK's no.1 hospital disinfectant brand.

Kills microorganisms associated with body fluid spills

Proven efficacy against Hepatitis B and C, *Clostridioides difficile*, Norovirus and killing viruses and bacterial endospores. Conforms to: EN 17126, EN 13727, EN 14248, EN 14476 and EN 13624, as well as standards set by the national infection prevention and control manual.¹

Quicker alternative to traditional spill kits

Replaces traditional chlorine-based spill kits, which are time-consuming and hazardous to use. Clinell Spill Wipes are simple to use, helping to increase compliance and reduce the burden of pathogen transmission.

Soak spill, wipe surface, dispose safely

As a complete kit, Clinell Spill Wipes provide an efficient solution for spills up to 350ml from start to finish. After use, the soiled pad, wipes and PPE worn by the user can be placed into the resealable bag and safely disposed of within the appropriate waste channel.

Based on patented technology

Harnessing the formulation technology of Clinell Peracetic Acid Wipes, the pad generates powerful oxidising agents including peracetic acid, which is safe for use on blood, faeces and urine - unlike chlorine-based disinfectants, which form toxic gas on contact with urine.

What is in a Clinell Spill Wipes Kit?

One super absorbent, peracetic acid generating pad

Two large detergent-disinfectant wipes

Resealable bag for safe and easy waste disposal
